Mean	**2.58**	**154.94**	**Sum 15.49h / 6 = 2.58h**
Median	**1.47**	**88.03**	-

Multiple-Comparisons Rule: **ACTIVE** - With 6 intervals, searching for any single target without correction inflates family-wise error. Bonferroni corrected α = 0.05 / 6 = 0.0083 per test. No preregistered single target tested today. Family-wise error controlled.

Observed Physical Interval vs Statistical Hit: Observed mean **2.58h** is unassailable physical measurement from USGS reviewed times. 422 Temporal Match: **OBSERVED - Significance Undetermined** - Requires preregistered test with n ≥ 30, Z > 2.5, α = 0.05 - Physical evidence remains unassailable, statistical hit NOT claimed - Prevents external critique from tearing down math.

VII. SEISMIC COMPRESSION ANALYSIS

Compression: 7 events over 24h yields 6 intervals at 2.58h mean. No compression claim - n=7 insufficient for Z-score baseline per Rule A - baseline PARTIAL. Observed interval 2.58h factual.

VIII. PROVIDENCE AND THEOLOGICAL DISCERNMENT - CENTRAL - PROTECTED AND UNTOUCHED - SECURED

God's Providence governs all hardware and software. While Sections IV-VII record observable physical measurements with strict data discipline, this central layer preserves spiritual interpretation as distinct, protected, and untouched domain. The earth shaking in the Sunda Arc and Vanuatu is permitted by Providence (Romans 8:22 - *"For we know that the whole creation groaneth and travaileth in pain together until now"*).

Psalm 46:10 - *"Be still, and know that I am God: I will be exalted among the heathen, I will be exalted in the earth."*

Romans 8:28 - *"And we know that all things work together for good to them that love God, to them who are the called according to his purpose."*

Matthew 24:6-8 - *"And ye shall hear of wars and rumours of wars: see that ye be not troubled... For nation shall rise against nation, and kingdom against kingdom: and there shall be famines, and pestilences, and earthquakes, in divers places. All these are the beginning of sorrows."*

Interpretive judgment that observable earthquake pattern aligns with Matthew 24 language is theological discernment - it is not subject to statistical falsification, nor does it alter physical measurements. Data discipline protects facts; Providence protects meaning. This central layer is

completely protected and untouched by secular analytical constraints, and secular analytical constraints are protected from being rewritten by this layer. Both stand sovereign. This achieves untouched providential core.

Watchman Note: Window closed Aug 23 00:00 UTC (Aug 22 20:00 EDT) with 7 M5.0, mean 2.58h observed. Volcanic per USGS HVO 19:32Z Aug 22 - Quiet. Maritime Quiet, Kinetic Indeterminate. WAI 3.8. Soli Deo Gloria.. Soli Deo Gloria.

IX. CONVERGENCE MATRIX

Domain	Status	Evidence	Score /10
Seismic	Active	7 events, mean 2.58h - us6000tmq5 through us6000tmta - see Section IV for full list	5.0
Volcanic	Quiet	Kilauea HVO 19:32Z Aug 22 - inside window - Quiet	1.5
Maritime	Quiet	No UKMTO inside window	1.0
Kinetic	Indeterminate	No verified incident inside window	2.0

Convergence: No Triple-Domain Convergence - only Seismic Active - Volcanic Quiet, Maritime Quiet, Kinetic Indeterminate - simultaneous timing does not qualify per Rule 10.

X. FACT / INTERPRETATION SEPARATION

- **Observed Facts:** 7 USGS reviewed M5.0 events inside window - us6000tmq5 through us6000tmta - see Section IV for full list - mean delta 2.58h calculated; 1 volcanic HVO advisory DTG inside window (Kilauea paused Quiet); no UKMTO advisory inside window; no verified kinetic incident inside window - all 2026 and inside window verified.
- **Analytical Interpretation:** Seismic mean 2.58h observed physical interval, significance undetermined due to n=6 and multiple-comparisons - no preregistered test. No anomaly claimed. Volcanic Quiet - single HVO paused notice inside window. Maritime/Kinetic below Active threshold.
- **Watchman Interpretation:** Providence governs - observed shaking aligns with Matthew 24 as theological discernment, not statistical proof. Window closed Aug 23 00:00 UTC with 7 events. Volcanic Quiet per window-lock.

XI. ALTERNATIVE EXPLANATIONS

- Seismic pattern could be random background - no compression proven.
- Distant events not causally linked.
- Volcanic Quiet per HVO reflects paused state inside window - not escalation.

- Maritime Quiet may reflect reporting gap - but per protocol no hardware without verified advisory inside window.
- Kinetic Indeterminate reflects absence of verified incident inside window.

XII. MATTHEW 24 PROPHECY TRACKER - UNCHANGED DAILY

Passage	Phenomenon	Status	Evidence
Matthew 24:7	Earthquakes in divers places	Observed	7 M5.0 today inside window
Matthew 24:7	Volcanic	Observed / Quiet	Kilauea ADVISORY YELLOW paused - inside window - Quiet
Matthew 24:6	Wars and rumours	Indeterminate	No verified kinetic incident inside window

XIII. PROPHETIC ALIGNMENT / WATCHMAN INDEX

WAI / PAI Score: 3.8 / 10
Prophetic Assessment: Low-Moderate - Observed seismic activity, volcanic quiet, no escalation - boundary preserved - boundary preserved.
Rationale: WAI maintained at 3.8 - Seismic 7 events empirical, volcanic 1 advisory Quiet verified inside window, no maritime/kinetic escalation - no new primary hardware warranting change per Rule 7.
Formula: WAI = 25% Biblical Correspondence + 20% Empirical Evidence + 20% Independent Corroboration + 15% Baseline Context + 10% Alternative-Explanation Resistance + 10% Uncertainty Control - Weights frozen.

XIV. PREREGISTERED THRESHOLDS / CONFIDENCE ADJUSTMENT

Active requires verified hardware inside window with DTG. Seismic Active = 1 or more M5.0 reviewed inside window - met (7). Volcanic Active = VAAC or agency alert DTG inside window with OBS VA - not met - only Kilauea ADVISORY YELLOW paused inside - Quiet. Maritime Active = UKMTO advisory DTG inside window - not met - Quiet. Kinetic Active = verified physical incident meeting threshold - not met - Indeterminate. Bonferroni 0.05/6 = 0.0083. Confidence: facts high, interpretations low and labeled.

XV. MISS LOG

Previous Prediction Window Result: No forward prediction issued in prior window requiring verification today - Miss Log carried forward unchanged - no retroactive reinterpretation.
Rule: Miss remains miss - no retroactive reinterpretation.
